

Jenny Na

Bio: My name is Jenny Na and I have been a member of the RNAO since 2011 when I was a student in the Basic-Accelerated BScN Program at McMaster University. I have been actively involved in the RNAO Halton Chapter executive as Member at Large since 2016 and currently work as a Registered Nurse on the Medicine & Nephrology Unit at Credit Valley Hospital and General Medicine Unit at Hamilton General Hospital. This September 2018, I will be beginning graduate studies in the Primary Health Care - Nurse Practitioner Program with a global health focus at the University of Toronto. As NP Student Liaison, it is my great hope to be an advocate and knowledgeable resource about NPIG to fellow NP students and to promote positive engagement with NPIG through outreach and membership.
